Cesar Lopez

Strategic Product Designer | Certified AI Product Manager | AI Orchestration

With **over a decade of experience spearheading end-to-end digital transformation**, I translate complex business requirements into **scalable, user-centric ecosystems**. Drawing on a strong foundation in strategy, **I bridge the gap between design, engineering, and organizational goals**. By integrating **advanced AI orchestration across the entire product lifecycle**—from ideation to deployment — **I optimize workflows, accelerate time-to-market, and drive rapid innovation**. A champion of collaborative culture and design excellence, I excel at **mentoring cross-functional teams,** evangelizing robust design systems, and leveraging data-informed strategies to deliver market-defining digital products that **fuel business growth** and **elevate the user experience.**

Skills

Product Strategy & Business

- Design Thinking
- Business Metrics (KPIs/OKRs)
- Competitive Analysis
- Market Positioning
- MVP Scoping
- AI orchestrator

Advanced Craft & Execution

- Systemic Design
- AI Complex Prototyping
- Information Architecture
- Accessibility (WCAG)
- AI Development

Research & Discovery

- User Research
- Usability Testing
- Data Analytics
- Customer Journey / Empathy Mapping
- Design Advocacy
- AI Data Architecture

Leadership & Soft Skills

- Stakeholder Management
- Mentorship
- Cross-functional Collaboration
- Data-Driven Decision Making
- Storytelling

Experience

AT&T / Lead Sr Ux Designer

Jan 2026 - Present , Atlanta GA

- **AI-Driven Experience Architecture:** Spearheaded the integration of AI and agentic models into the product ecosystem, designing intelligent interfaces that leverage predictive analytics to personalize user journeys and automate complex workflows.
- **Strategic Design Ops & AI Governance:** Directed the evolution of enterprise design systems by incorporating AI-assisted tooling and automation, optimizing the design-to-development handoff while ensuring ethical UX standards for AI interactions.
- **Cross-Functional AI Orchestration:** Led high-stakes collaboration between Data Science, Engineering, and Product teams to translate technical AI capabilities into intuitive, user-centric features that drive measurable business growth and competitive differentiation.
- **Visionary Leadership & Mentorship:** Evangelized a forward-thinking design culture, mentoring cross-functional teams on the intersection of UX and Generative AI to foster a landscape of continuous innovation and high-fidelity product delivery.

AT&T / Sr Ux Designer

May 2024 - Jan 2026, Atlanta GA

- **Holistic CX Strategy & Friction Reduction:** Orchestrated comprehensive design strategies that aligned the Customer Experience (CX) vision across the entire consumer journey, proactively identifying pain points to eliminate friction and elevate overall user satisfaction.
- **Omni-Channel Experience Architecture:** Designed seamless, end-to-end service experiences bridging retail and call center environments, collaborating with eCommerce and Digital Engagement teams to ensure a unified brand presence across all physical and digital touchpoints.
- **Strategic Alignment & Decision Influence:** Drove organizational alignment for high-stakes business decisions by evangelizing user-centered solutions to stakeholders, ensuring a collaborative rollout of new product enhancements and digital service features.
- **Design System Governance & Research Leadership:** Led cross-functional teams in the rigorous application of design system standards and user research methodologies, ensuring architectural consistency and data-driven integrity across all design workstreams

AT&T Business / UX Architect

Jan 2023 - Apr 2024, Orlando Fl

- **Strategic Stakeholder Consultations:** Lead high-level consultancy sessions with stakeholders and clients to synthesize complex business objectives and operational workflows into a unified architectural vision for the digital product ecosystem.
- **Empathetic Research & Data Synthesis:** Directed comprehensive user research initiatives—including deep-dive interviews, surveys, and usability testing—to decode user pain points and architect data-driven personas and journey maps that inform long-term product strategy.
- **Information Architecture & Structural Logic:** Engineered the foundational structure of complex digital environments, producing sophisticated sitemaps, product maps, and intuitive user flows to ensure seamless navigation and optimized content hierarchy.
- **Systemic Design & Cross-Functional Orchestration:** Managed the creation of wireframes, prototypes, and scalable design systems to establish interaction patterns, while collaborating with engineering and product leads to translate research findings into actionable, high-performance design solutions.

Integris Group LLC / Sr. Product Designer Consultant

May 2022 - Jun 2023, Orlando Fl

- **Strategic Product Orchestration:** Direct the end-to-end design lifecycle from high-level ideation to final delivery, ensuring all product initiatives maintain a perfect equilibrium between user desirability, technical feasibility, and core business objectives.
- **Cross-Functional Governance:** Facilitate high-impact collaboration between Product Managers, Engineering, and Business Analysts to synchronize design roadmaps with organizational KPIs, ensuring technical requirements are seamlessly integrated into intuitive user experiences.
- **Operational Design Leadership:** Manage complex project workflows, resource allocation, and delivery timelines, while establishing robust design systems and style guides to ensure scalability and brand consistency across diverse product portfolios.
- **Validation & Stakeholder Influence:** Lead comprehensive user research and usability testing cycles to validate design concepts, effectively communicating data-driven design decisions to executive stakeholders to secure buy-in and mitigate project risk.

Immersicom LLC / Senior UX/UI Designer / Developer

Feb 2021 - Nov 2021, Orlando Fl

- **Design System Governance & Strategy:** Spearheaded the evolution and management of enterprise-grade design systems, ensuring that the overarching product vision and UI consistency remained aligned across all digital touchpoints and development cycles.
- **End-to-End Product Ownership:** Owned complex design challenges from initial conceptualization to final deployment and post-launch iteration, bridging the gap between high-level UX strategy and technical implementation to deliver seamless, user-centric solutions.
- **Performance & Multi-Device Optimization:** Engineered and optimized reusable UI components for maximum performance and scalability, ensuring a high-speed, intuitive experience across a diverse landscape of web-capable devices and browsers.
- **Data-Informed Interaction Design:** Directed A/B testing initiatives and behavioral analysis to refine user interactions, iteratively evolving existing interfaces to increase engagement, intuitiveness, and conversion rates throughout the customer acquisition funnel.

Globe Check LLC / Senior UX/UI Developer

Jul 2020 - Jan 2021, Orlando Fl

- **End-to-End Product Governance:** Served as Design Lead for a comprehensive teleophthalmology ecosystem, steering the full lifecycle of a multi-platform SaaS solution, mobile application, and corporate website from initial discovery to deployment.
- **Design-to-Code Translation:** Translated complex high-fidelity wireframes and architectural assets into clean, high-quality code, ensuring pixel-perfect execution while maintaining strict alignment with design systems and user experience goals.
- **Component Architecture & Scalability:** Engineered a robust library of reusable front-end components and technical specifications, streamlining the development workflow and ensuring design consistency across future product iterations.
- **Performance Engineering & Optimization:** Conducted rigorous performance tuning and cross-device optimization to ensure maximum application speed and responsiveness across a vast array of web-capable devices, browsers, and technical environments.

Brain Group LLC / Sr UX / UI Designer

Jul 2017 - Jul 2020 , Bogota - Colombia / Orlando Fl

- **Multi-Brand Strategic Leadership:** Spearheaded the end-to-end design lifecycle for a diverse portfolio of agency clients, synthesizing disparate brand identities into cohesive, high-performance digital products across web, mobile, and emerging platforms.
- **Discovery & Stakeholder Synthesis:** Led high-stakes discovery workshops and user research initiatives (interviews, surveys, usability testing) to align client business goals with user needs, translating complex requirements into actionable design roadmaps.
- **Rapid Prototyping & System Architecture:** Engineered scalable design systems and interactive, high-fidelity prototypes to facilitate rapid stakeholder buy-in and streamline the hand-off process for multi-disciplinary engineering teams.
- **Cross-Functional Orchestration:** Directed collaborative workflows between creative directors, product owners, and developers to ensure the accurate, on-time delivery of intuitive user interfaces that optimized conversion and user retention for client partners.

Brain Group LLC / Sr UX/UI Designer

Jan/2013 - Jun/2017, Bogota - Colombia

- **User-Centered Discovery:** Executed fundamental user research, including conducting interviews and usability testing sessions, to transform raw participant feedback into actionable personas and user journey maps.
- **Iterative Visual Design:** Designed clean, intuitive site layouts and user interfaces following industry-standard UI principles, ensuring all visual assets remained consistent with brand guidelines and accessibility requirements.
- **Collaborative Prototyping:** Developed interactive wireframes and low-to-high fidelity prototypes to effectively communicate design concepts to senior designers, product owners, and developers for rapid feedback and iteration.
- **Technical Implementation & Growth:** Collaborated with engineering teams to code reusable UI components and optimize landing pages for performance, maintaining a proactive approach to learning emerging design tools and front-end trends.

Trade Line S.A.S / Digital Marketing-Manager

Jun/2011 - Jan/2013, Bogota, Colombia

- **Omni-Channel Strategy & Execution:** Orchestrated high-impact digital and social media strategies across diverse client portfolios, aligning brand storytelling with technical execution to drive measurable engagement and cross-channel growth.
- **Fiscal Stewardship & Performance Marketing:** Managed comprehensive marketing budgets and media plans, leveraging data-driven forecasting to consistently meet and exceed client KPIs through optimized resource allocation.
- **Strategic Gap Analysis & Project Lifecycle:** Conducted deep-dive business gap analyses and requirement evaluations to architect end-to-end project plans, overseeing cost estimation, documentation, and the seamless implementation of marketing technology (MarTech) applications.
- **Market Intelligence & Growth Innovation:** Maintained a competitive edge by synthesizing emerging trends , advertising platforms, and behavioral analytics, proactively integrating cutting-edge tools to advance agency capabilities and client market share.

Cloudsters S.A.S / Sr Digital Designer

Jun 2008 - Jun 2011, Bogota - Colombia

- **Multimodal Instructional Ecosystems:** Engineered a comprehensive suite of web and print-based instructional assets, including high-fidelity eLearning modules, technical manuals, and performance-based job aids tailored for complex system architectures and soft-skill development.
- **High-Engagement Digital Strategy:** Spearheaded the end-to-end development of interactive digital ecosystems—ranging from microsites and responsive email frameworks to data-driven infographics—ensuring all brand touchpoints delivered a cohesive and memorable user experience.
- **Conceptual Visual Storytelling:** Translated intricate technical and instructional concepts into sophisticated interactive graphics and motion designs, utilizing animation to reinforce learning retention and simplify complex program requirements for diverse stakeholders.
- **Strategic Media Integration:** Orchestrated the production of high-quality digital media, including video and interactive prototypes, to bridge the gap between training leadership's vision and the delivery of highly creative, scalable learning solutions.
